

## TECHNICAL FEATURES

### SPEEDLINGUA PROFESSIONAL INDIVIDUAL

Version 2.0

### Configuration required for version 2.0

**Speedlingua Professional Individual** is a one workstation/ user version of the software. This version is for learners who do not have access to a resource centre where Speedlingua has been installed.

The software is PC compatible and runs on Windows.

**Speedlingua Professional Individual** has similar contents to the **Speedlingua Professional Network** version. The history file is exportable and can be sent via the Internet to assist with distance tutoring.

#### TECHNICAL CHARACTERISTICS

##### User application configuration:

Operating system	Windows® 2000/XP Vista	Processor	Pentium® III 450 Mhz	Memory	128 Mb depending on OS installed	Hard drive	500 Mb per target language + 500 Mb for videos
